

Governance, Peoples and EDIIB (Equity, Diversity, Indigeneity, Inclusion, and Belonging) Committee Report

Since its creation, the GPEDIIB Committee has met on October 22, 2024 and continued its work and communication over e-mail.

Some known 'episodes' related to (the lack of) care/focus on GPEDIIB issues has driven the committee to take some steps back on some issues, realizing that real support may not be there from the CAAA and the BOD.

One specific 'episode' led to the resignation of one member (Alessandro Ghio), which has had an impact on the committee.

The committee was able to appoint a new member (Mélissa Fortin).

While the committee put forward some motions, it remains skeptical about how EDIIB issues (such as event speaker diversity, governance and language/bilingualism) are taken and considered at the CAAA level.
